

108TH CONGRESS
1ST SESSION

H. CON. RES. 140

Expressing the sense of Congress regarding the awareness of and treatment
for kidney disease.

IN THE HOUSE OF REPRESENTATIVES

APRIL 7, 2003

Mr. CUMMINGS submitted the following concurrent resolution; which was
referred to the Committee on Energy and Commerce

CONCURRENT RESOLUTION

Expressing the sense of Congress regarding the awareness
of and treatment for kidney disease.

Whereas nearly 20,000,000 people in the United States are
estimated to be at risk for chronic kidney disease;

Whereas people of African, Native American, Hispanic,
Asian, and Pacific Island descent are more at risk for
kidney disease;

Whereas kidney disease is a silent killer because most people
with kidney disease are unaware of their illness;

Whereas diabetes and hypertension are the leading causes of
kidney disease;

Whereas end-stage renal disease is a condition that causes
permanent kidney failure requiring dialysis or kidney
transplant;

Whereas dialysis can slow down chronic renal failure and is a life saving process that helps patients perform many normal activities;

Whereas nearly 51,000 people in the United States are awaiting a kidney transplant; and

Whereas there is no cure for kidney disease and treatment involves regular checkups, proper eating, and regular exercise: Now, therefore, be it

1 *Resolved by the House of Representatives (the Senate*
2 *concurring)*, That it is the sense of Congress that—

3 (1) national and community organizations
4 should be recognized and applauded for their work
5 in promoting awareness of kidney disease and for
6 providing information about the disease;

7 (2) health care providers should continue to in-
8 crease their efforts to diagnose kidney disease in its
9 earliest stages; and

10 (3) the Federal Government has the responsi-
11 bility to—

12 (A) increase awareness about the impor-
13 tance of detection and proper treatment of kid-
14 ney disease;

15 (B) work to increase research funding so
16 that all the causes of and a cure for kidney dis-
17 ease may be discovered, and new treatments for
18 kidney disease may be developed; and

- 1 (C) consider ways to improve access to,
- 2 and the quality of, health care services for de-
- 3 tecting and treating kidney disease.
